High school students will participate in STEM workshops as well as enhancement sessions including college admission workshops and enrichment sessions. Females of Color and those Underrepresented in STEM will be invited to the FOCUS Academy (virtual). The program is designed to provide a supportive and inclusive environment for participants to explore opportunities in STEM fields. Students will have the opportunity to work with mentors and experts in various STEM disciplines, attend workshops and discussions, and engage in hands-on projects. The FOCUS Camp (virtual) will be held on August 12, 2021.

Aspiring Scientists Summer Internship Program (ASSIP) Research Symposium will be held on the last day, presenting what they learned in these workshops in a conference-style setting. Participants (6 through 8 graders) will engage in four different interactive and hands-on STEM workshops and sessions.

Mason's Colleges of Science and Engineering have combined to sponsor the 2021 STEMNoire conference, a celebration of Black Contributions in Science, Technology, Engineering, and Mathematics (STEM) disciplines. The conference aims to highlight the achievements and contributions of Black scientists and mathematicians while providing networking and professional development opportunities. Mason's sponsorship includes funding for a limited number of free tickets for students from the African diaspora in the STEM discipline. The conference will take place on June 24 to June 26, 2021.

STEMNoire 2021 is an annual conference that brings together scientists, researchers, and professionals from diverse backgrounds to share their experiences and discuss the challenges and opportunities in STEM. Mason's sponsorship of the conference demonstrates its commitment to diversity, equity, and inclusion in STEM education and research. Attendees will have the opportunity to attend sessions on a wide range of topics, including research presentations, panel discussions, and workshops.

This June, MasonLive student email and Microsoft Office 365 will be migrated to Office 365. To prepare and find the latest details on the change, visit the Student Office 365 migration project. Funding began in February 2021 and will end in late January 2022.
