The火焰 of Science at Mason

Dear Student,

I am happy to announce the official start of our summer programs:

- **FOCUS Camp (virtual)**
  - August 9, 2021 - August 13, 2021
  - Females of Color and those Underrepresented in STEM (FOCUS) Camp (virtual)
  - ASSIP participants will present their final projects worked on throughout the summer program.
  - August 12, 2021

- **STEMNoire 2021**
  - June 24, 2021 to June 26, 2021
  - Mason's Colleges of Science and Engineering have combined to sponsor the 2021 STEMNoire conference, a research and holistic wellness program intentionally created to connect, uplift, and empower women of the African diaspora in the STEM. Through our sponsorship, a limited number of free tickets are available for students.

- **ASSIP Research Symposium**
  - August 9, 2021 - August 13, 2021
  - On the last day, present what they learned in these workshops in a conference-style setting.

- **STEMNoire 2021**
  - June 24, 2021 to June 26, 2021
  - STEMNoire is the Mason event of the year where we celebrate Black excellence in STEM and connect women with leaders in the field. Mason announced that annual leave rollover for faculty will be extended to end of August 24, 2021. Faculty includes: 12-month instructional/research faculty, 12-month research staff. Please direct questions to payroll@gmu.edu.

**Fundraising Efforts**

- **Student Office 365 Migration Roadmap**
  - This June, MasonLive student email and Microsoft Office 365 services will be migrated to Office 365. This migration will improve collaboration, enhance user experience across campus, and provide additional resources to students.

- **Mason Live**
  - Update your preferences to continue receiving our emails.

- **Read his story**

**Happening at Mason**

- **Dust storms and Valley fever in the American West**
  - Senior earth scientist and TV host Sallie Barg in the American West.

**Stay Connected**
