News, insights, and updates from the Centers of Excellence (COEs) and other sources related to homeland security, cybersecurity, and transnational organized crime.

**Cyber Extremism and Violence: A Dynamic Nexus**

The Cyber Extremism and Innovation (CINA) Center is convening experts in individual and group extremism to share their knowledge, experience, and expertise with the audience. A subset of the group will meet after the event to develop white papers that outline research ideas intended to address questions and challenges that CINA continues to welcome.

**New Micro-Internship Options**

With our partner COEs and DHS, and in partnership with academic institutions and DHS industry partners, CINA is investigating a micro-internship model which could offer opportunities for the next generation of homeland security experts, facilitating internships and mentorships for students and recent graduates both within and beyond academic institutions and DHS industry partners.

**Digital Archiving: CINA Virtual E-Discovery and Digital Forensics**

CINA is convening experts in digital archiving, e-discovery, and digital forensics to share their knowledge, experience, and expertise with the audience. Participants will be able to exchange knowledge, offer new perspectives, and network with experts in the field.

**Watch CINA’s Director, Jim Jones, present**

Join us to view the CINA’s Director, Jim Jones, present the **CCI Seminar - SolarWinds: Hacked** event taking place on Thursday, March 25 from 10:30 a.m. to 4:30 p.m. EST. This seminar will highlight the findings and lessons learned from the SolarWinds cyberattack, affecting U.S. government agencies and technology companies, and discuss the challenges and opportunities presented by the attack.
