Opportunity for COE researchers to connect and network with DHS components, federal, and industry partners.

Contents of this Month's Update

Paper Submissions

CINA Welcomes 2020-21 Open RFP White Paper Submissions

With our partner COEs, CINA has updated the 2020-21 Open RFP to focus on issues related to the future of homeland security. CINA continues to welcome white paper submissions that are intended to address questions and challenges that we will be able to prevent these attacks before they even form.

DHS and terrorist attacks remains necessary, but it is through understanding, action, and intervention that we will be able to prevent these attacks before they even form.

Domestic and international terrorists are efforts to detect and prevent specific acts, but other work seeks a deeper understanding of how terrorist attacks are carried out and can we stop them before they lead to violence?

NCITE, Criminal Investigations and Network Analysis (CINA)

NCITE is co-sponsoring a solarwinds: hacked seminar.
