Contents of this Month's Update

Criminal Investigations and Network Analysis (CINA) continues to welcome expected to be facing in the near future. This rolling RFP provides research ideas intended to address questions and challenges that CINA continues to welcome

Terrorism, whether international or domestic in origin, remains a top threat to our national security, and considerable resources are devoted to addressing this danger. Certainly there are efforts to detect and prevent specific acts, but other work seeks a deeper understanding of how can we stop them before they lead to violence? terrorist acts...but how do these extremist views develop and gain traction in the first place, attacks in the first place. A common thread among domestic and international terrorists is the influences and circumstances that lead an individual or group to plan and carry out such

Cyber Extremism and Violence Seminar

Hosted by the DHS Centers of Excellence (COE), this virtual event offers a unique opportunity for COE researchers to connect and network with DHS components, federal, state, and local stakeholders, as well as industry partners.

This seminar's discussion focused on the hack's impact and research aimed at preventing and mitigating similar cyber-attacks. Questions discussed include the impact of the attack, sometimes described as a software supply chain attack. This hack allowed hackers to exploit weaknesses in SolarWinds' system-to-system (supply chain) updates that commonly exist between many internet-connected ecosystems. This is one of the largest cybersecurity breaches in recent

The SolarWinds cyberattack, affecting U.S. government agencies and technology companies, is being featured in a showcase panel.

In this event we bring together leading academic experts to discuss this catalyst of extremism and increasingly complex threats to homeland security.

Cyberspace content and interactions have emerged as a breeding ground for the spread, or even birth of extremism and violence. From recruitment of terrorists or gang members, to the planning of extremist activities, we are connection, extremist ideas spill over from cyberspace to the real world, leading to violence and increasingly complex threats to homeland security.

Wednesday, April 14 from 12:00 p.m. - 1:30 p.m. EST to listen to him discuss the fight on illicit trade.

Centers of Excellence Summit 2021

Friday, October 15 - Saturday, October 16, 2021 at 10:00 a.m. to 4:30 p.m.

The Centers of Excellence (COE) Summit is the signature event of the COE program and provides an opportunity for interagency collaboration and networking, as well as an opportunity for centers to demonstrate their capability to solve pressing homeland security issues.

Prepared by the DHS Centers of Excellence in Homeland Security to provide up-to-date information and analysis on critical homeland security topics and to help connect COE researchers with potential sponsors, the COE Summit provides a unique opportunity for interagency collaboration and networking.
