Cooperative's zoom webinar

Growing Your Crops

Producers Cooperative's Agronomy Warehouse Associates load everything from bag fertilizer to killabrews. Mark McMath, the Agronomy Division Manager with 20+ years of experience in the field, and his team can help you with all of your Agronomy needs- from pasture protection practices in your grazing fields to lawn care. Call the Producers Agronomy team today at 979-778-6000.

Tru-Test WaterWell™ Water Troughs

Tru-Test WaterWell™ Waterers are lower profile than others in the market for livestock of all sizes. The flotation balls help seal the waterer, reducing evaporation and virtually eliminating algae growth by keeping the unit dark. The color of the ball float controls water temperature. White-colored balls reflect heat and aid in keeping water cool during the summer. Black-colored balls absorb sunlight and keeps water warmer during the winter months. Livestock quickly learn to push the balls down to access the fresh water. For more information call Andy Scasta, Producers Cooperative's fence-yard manager at 979-778-6000.

From The Ground Up

From The Ground Up educates our friends and neighbors in the Brazos Valley about agriculture and its impact on their everyday lives. Be sure to watch our weekly televised segment at approximately 6:15am on Thursdays or during the Saturday 6 o'clock evening news on KBTX-TV 3, Bryan-College Station's CBS affiliate.

This week's segment covers "Ground Beef Demand Surges During Pandemic " *with Dr. Davey Griffin.*
