Save the Date: Celebration of Success
November 8, 2022 | 1 to 2:30 p.m. | Exploratory Hall 3301 and Virtual
Engaging ideas for AJEDI - College of Science Staff Meeting

Faculty are invited to participate in the shaping and finalization of Mason Science’s 5-Year AJEDI Strategic Plan.

How to Write Research, Scholarship, and Creative Work Statements, which focuses on effectively conveying your research in a way for Mason faculty, staff, and students to come together, discuss the issues confronting working mothers.

The ARIE Conference will provide an opportunity to critically discuss anti-racism and inclusive excellence in new strategies to treat metastasis. Join Drs Lance Liotta and Marissa Howard for a lecture on “Eavesdropping on the whispers of cancer to find new strategies to treat metastasis.”

Join us for the 11th Annual George Mason University Women’s Health Annual Conference:
October 24, 2022 | 8 a.m. to 6:30 p.m. | Mason Square, Arlington, VA
Anti-Racism and Inclusive Excellence Conference

The conference is designed to foster dialogue on the topic of inclusive excellence among Mason faculty, staff, and students. Attendees are encouraged to contribute to the discussion of anti-racism and inclusive excellence in Mason’s scientific community through participation in panels, workshops, and sessions.

The conference will feature keynote speakers, panel discussions, and interactive workshops on topics such as diversity, equity, and inclusion in the sciences.

Events

The Women’s Math Circle was launched in Fall 2019 and is hosted by the Department of Mathematical Sciences. The aim of the Women’s Math Circle is to provide a supportive environment for women to learn mathematics, explore research opportunities, and build community. The circle meets monthly and is open to female-identifying students and faculty.

The Women’s Math Circle hosts a variety of events throughout the year, including talks, problem-solving sessions, and workshops. The circle also hosts annual events, such as the Women’s Math Circle Symposium and the Women’s Math Circle Poster Session.

The Women’s Math Circle provides a space for women to connect with other women in the field of mathematics, share experiences, and build relationships. The circle also supports women in pursuing careers in mathematics and promoting diversity and inclusivity in the field.

The Women’s Math Circle is open to all female-identifying students and faculty. The circle is supported by the Department of Mathematical Sciences and is part of a larger network of women’s math circles across the country.
