Oracle Financials Cloud Scheduled Maintenance 06/18/2023
Oracle production environment will be down for maintenance from 7:00 PM Friday 06/16/2023 through 7:00 PM Sunday 06/18/2023.

Cost Transfer Exceptions Report Not Sending All Errors
The UCSD BI report that is emailed when approved cost transfers are not processed by Oracle isn’t sending out the notifications for all error types. Please continue to review your transfers to ensure they are completed in the Project Cost Transfer Panorama or review your exceptions in the Panorama or the Manage Project Cost Adjustment Exceptions. There is not currently an ETA for a fix.

Updated Department Reporting Categories
The new department reporting category options, Faculty Portfolio and Department Portfolio, are now in production. Existing projects with populated Department Reporting Categories were updated. Ongoing, departments can update through PADUA. For more background information, see the Budget and Finance Digest from 6/6/23.

Updated Research Project Classifications
The Project classifications for PI and Sponsor Initiated clinical trials have been disabled and existing projects have been updated to Research. For more background information, see the Budget and Finance Digest from 6/6/23.

Save the Dates! Sept 12th & 13th Research Administrator Appreciation + Fund Manager Summit 2023
Save the Dates for our upcoming Research Administrator Appreciation and Fund Manager Summit event! This two-day celebration, hosted by the Vice Chancellor of Research Affairs and Vice Chancellor Chief Financial Officer, is open to research administrators and fund managers from across the university. It’s our way of thanking you for your valuable contributions and focusing on sharing best practices and problem-solving to make research administration and fund management easier in support of the UC San Diego mission. We encourage all departments to send their RAs and FMs, including remote employees. Stay tuned for more information, including registration details and specific content topics.

**Enhancement Releases**

**Graduate Student Funding Report:**
- In order to prevent alumni employees from showing up on the report, only the following employee class types are included: "Academic: Academic Student", "Academic: Medical Residents", and "Student: Casual/Restricted"
- Two new prompts have been added: Hiring Department (returns payroll data only) and Expenditure Type
- Two additions to Summary Table: Fin Unit Code and Name and Admit Term Year. This table also now sorts by Fiscal Year.

**Chart of Accounts Panorama:**
- All reports are now able to be searched by all hierarchy levels.

**New Report:**
- Misposted Miscellaneous Receipts on Sponsored Projects:
  - Sponsored Projects should have miscellaneous receipts posted as a credit to expense or applied towards an invoice.
  - Sponsored project receipts should most often be posted and applied to an invoice, not as a credit to expense.
  - This report highlights any credits to expense as a potential receipt that may need to be applied to an invoice.

**Clear Legacy Fund Balances with a SOFI Swap**
With the implementation of the Simplified Operating Funds Initiative (SOFI) in FY2016, most departments across campus now operate with SOFI as their main Core Operating Fund (13991). However, in the Oracle transition, some legacy index balances were inadvertently carried over in fund numbers such as:

- 19900-State General Fund
- 14000-Tuition
- 10950-Federal Contracts and Grants ICR
- 13050-Opportunity Fund
- 19933-Federal ICR (General Fund Portion)
- 19942-Nonresident Supplemental Tuition
The Campus Budget Office can assist with clearing these fund balances (whether positive or negative) via a SOFI swap journal. Please submit a ticket to CBO by selecting Budget & Planning > Fund Transfers/Allocations > CBO Resource Allocations and include SOFI Swap in the Subject Line. Please provide the following:

- Full Legacy Fund chart string and $ balance to be transferred
- Full SOFI-13991 chart string to send/receive the fund swap

**Note** - If there are current year expenses posting to the Project/Task linked to the legacy fund #, please process Cost Transfers prior to requesting a fund swap for the remaining balance. This may also include updating payroll, recharges and other transactions that are pointing to the legacy Project/Task so that additional expenses don’t continue to post in the future.

**Tips & Tricks**

**PaymentWorks Invitations - Description of Goods and Services field**
When sending an invitation to a new payee with PaymentWorks, our recommended practice is to provide detailed information as to what the payee is being paid for on the ‘Description of Goods and Services’ field. This will help IPPS teams to streamline the supplier setup. See below for examples of strong supporting information.

“Reimbursement for travel to UCSD, payee is leading a discussion on cinematography.”
“Contracting services to repair specialized equipment for Mechanical Engineering lab.”
“Receiving award for excellent volunteer service in inclusivity project.”

Please note that the maximum amount of characters in the ‘Description of Goods and Services’ field is 100 characters.
Concur Reports
Reports related to Concur Expenses and Card Transactions are available via the Business Activity Hub (BAH). For detailed information about these reports, refer to the Concur Reports Blink page for guidance.

Getting ready to submit Travel Expense Reports?
Review this checklist to ensure you have everything covered before submitting.

Getting Ready to Travel on University Business?
Review the Travel Policy Highlights document to ensure that you are on the right track before you travel. Remember to submit a Travel Request before you get started. A Travel Request is a pre-authorization from your Financial Unit, with estimated expenses, to go on university travel. It is required for most Travel Expense Reports.
