The latest in LED Light Guide technology significantly reduces glare and eliminates pixelation of the LED source.

Uniform illumination and optical control, with Type II, III, IV and V distribution patterns in 2700K, 3000K, 3500K and 4000K CCT.

20kA max/10kA nominal surge protection device will be standard on all Bella Vista with Light Guide Panel or ANP HighPro™ LED sources.

Visual comfort

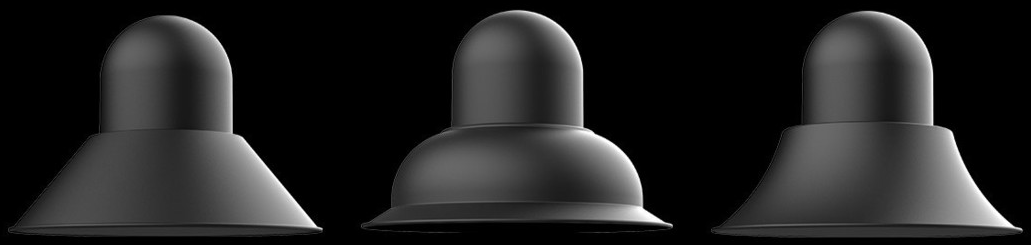

ANP Lighting’s LED light guide technology is more than just a next generation LED system, but a fundamental approach that lighting will enhance the user experience. Fulfilling this experience is our advanced comfort optical system, engineered to deliver uniform illumination while significantly reducing discomfort caused by harsh glare.

Light exiting the luminaire at angles that typically cause visual discomfort is minimized, creating an environment suitable for almost any application.

Bella Vista shade styles

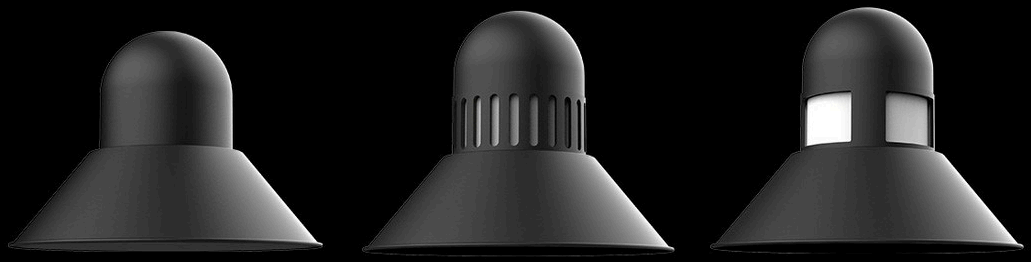

Three shade styles, six top styles and three sizes make the Bella Vista the most extensive and versatile product of its type in the industry.

Three shade styles

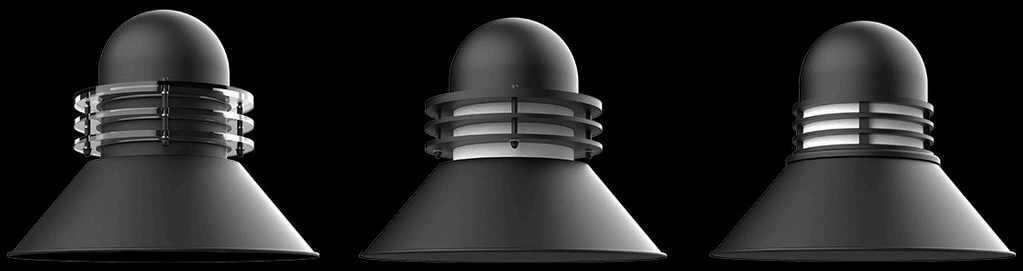

Angle (BVA) Bell (BVB) Flare (BVF)

Each shade style is available with six redesigned top styles. The new designs will be implemented on all future orders.
