Announcements

Accrual Entries

In keeping with appropriate accounting practices for year-end close, IPPS, in collaboration with ICA and OPAFS leadership, posted the required reversing accrual entries to ensure financial statements present accurately. Campus colleagues may be seeing these accruals if/when viewing reports for June 2021 (posting) and July 2021 (reversal); however, please remember these accrual entries represent expenses incurred but not posted/accounted within the fiscal year (e.g. PCard charges that departments have not added to an Expense Report nor obtained approval in Concur, any Expense Reports that haven't been final approved in Concur, etc.).

One way for campus colleagues to do their part to minimize the accrual amounts moving forward, is for all Procurement Card (excluding Health Issued PCards) and Travel & Entertainment Card cardholders to submit Expense Reports on a monthly basis. Campus colleagues should proceed in adding any unprocessed FY21 charges to Expense Reports in Concur and submitting for approval accordingly (i.e. resume normal course of business process).

Now that this first fiscal close in the new Oracle financial system has come to a close for our campus, central office leadership (IPPS/ICA/OPAFS) will be revisiting the closing steps/process and modifying as needed for years moving forward. We will be sure to make this information more widely available to campus as these conversations conclude.

Install the WalkMe Browser Extension!

The WalkMe Browser Extension adds various tips, walkthroughs, and resources to your Oracle and Concur applications. We also use WalkMe to add additional validation to your transactions, announcements, and reminders.

[Download the extension to your browser](#) to unlock these features.

A WalkMe build has been implemented in Oracle Procurement which validates whether or not POET information has been populated when a project has been referenced in the chart string. If POET information is not populated in those circumstances, there are numerous downstream effects and corrective actions (e.g. cost transfers, PO replacement, change orders) required both of the department and IPPS. We encourage you to download the WalkMe extension to improve the effect these enhancements can have on your procure-to-pay experience!

Take a tour of Concur by selecting the WalkMe “Explore Concur!” button right on the homepage. Get a refresher on what processes are being handled in the Concur application, available tasks, and UC San Diego resources relevant to travel and expense.

Searching for Faculty/Staff Attendees

When searching for *Faculty/Staff* Attendee Types to add to your Event Expense Reports in Concur, it is not necessary to try and fill out all of the search fields as it may be better to search more broadly. Best practice is to search either by first name and last name, or by email address.

Managing Concur Commitments

If you have any Travel or Event Requests that are associated with a project, and all associated Expense Reports have been processed, then the Travel/Event Requests should be closed to lift the commitments. Concur users/delegates can do so by following these steps:

1. Navigate to the Travel/Event Request in Concur
2. Click *Close/Inactivate Request* at the top right of the open Request

As a reminder, Concur Requests will automatically close at 120 days. Please contact the Travel & Expense team via Services & Support for questions regarding any closed Travel/Event Requests. For more information on viewing and lifting commitments, please review our [Blink page](#).
