PADUA 2.0 Task Updates Now LIVE!
Launched on August 22, 2022, additional features of the Project and Award Data Update Application (PADUA) tool are now available. Users are now able to Create New Tasks, Update Task Names, Update Task End Dates, and Update Task Personnel. The How to Use PADUA 2.2 KBA has been updated with these new features. Additionally, a short 5 minute training video can be found here.

New KBA: Closing Projects and Tasks
A new KBA has been published to help answer some common questions about closing projects and tasks. Read the Best Practices for Closing General Projects KBA here.

Oracle Workflow Notification Updates Coming 08/29/2022
Over the past several months we have been working on updating the Oracle Workflow Notifications with more detailed information to allow you to take advantage of the ability to approve your transactions via email. You can review the details of the following notifications being updated on Blink in preparation for the release date of August 29, 2022:

- Accounts Payable Invoices and Invoice Holds
- Contract Invoices
- Journals
- Requisitions, Purchase Orders, and Change Orders
- Project Budgets (Financial Plans)

Due to limited functionality, the following notifications cannot be updated at this time:
Airfare Quarterly Report: April - June, 2022
Travelers who booked their airfare the Triton way with Concur, Balboa Travel, or Kahala saved an average of $134 per ticket in addition to $227,353 in added contract savings! Didn’t book in Concur or with a partner agency? Be sure to book appropriately for your next trip so you don’t miss out on the full benefit of what our managed travel program offers. Travelers who booked their airfare the Triton way during the spring quarter were automatically entered into an opportunity drawing to win a $25 Visa Gift Card. Congratulations to this quarter’s winner, Professor Izzo from Political Science!

New Report Releases on Department Exceptions Panorama
New Exception Reports have been released on the Department Exceptions Panorama to help you identify issues in Oracle requiring correction. See the BI & Financial Reporting section below and Blink for more information.

**Fund Management Office Hours**

**Every Thursday**

11:00am - 12:00pm

At this week's office hours, we will discuss transactions in the General Ledger without a project segment, including which types of transactions typically require correction and which do not. To help you identify transactions needing correction, a new exceptions report has been released on the Department Exceptions Panorama, called Transactions on No Project. That report will be demoed at this office hours. There will also be time for open Q&A.

**BI & Financial Reporting**

**New Report Releases in the Department Exceptions Panorama**

- **Non-Sponsored Contract Lines Without Project or Task** and **Non-Sponsored Contracts Without Revenue Account or Fund**: Individuals who are responsible for creating or managing non-sponsored contracts should use these two reports to identify setup errors on their contracts. If contracts are missing any of these chartstring elements, transactions associated with the contract will not post correctly.

- **Non-Sponsored Generate Invoice Process Errors**: Errors can sometimes occur in Oracle that prevent invoices from posting correctly. Use this report to identify invoices that have failed to post in Oracle and require corrective action.

- **Transactions on No Project**: A new report on the Department Exceptions Panorama identifies UCPath, Concur, or Oracle transactions that were recorded without a project in the General Ledger. This report can be used to identify transactions that belong on a project so they can be corrected.
