

A few Words from Jon Meyers, ADDPC Executive Director

*"Care is one of the pillars of the human, a last bastion of uniqueness
in the age of intelligent machines."*

-Hari Kunzru

We're hearing a lot these days about Artificial Intelligence, or AI, and all the many benefits it promises for humankind. Built on a foundation of access to virtually all knowledge, anywhere it might be found, mind-bogglingly fast and seemingly capable of performing tasks as though it were a real person, AI could take the place – and the jobs – of millions of people around the world.

But where might artificial intelligence fall short? If the *intelligence* is artificial, aren't there likely to be other attributes of AI that also are not truly human – attributes such as compassion, empathy, affection, and selfless dedication?

Aren't these the very characteristics we associate with caregivers for individuals with disabilities?

The Arizona Developmental Disabilities Planning Council continues our profile series to help

community members get to know the people who represent Arizonans with disabilities.

Up this month is Council member Gabriela Orozco

Gabriela “Gabby” Orozco sees her role on the Council as being a liaison and partner of Spanish-speaking families in her own community. Her experience, expertise, and knowledge, first and foremost, comes from being a parent of an adult son with autism and cognitive disability. The journey Gabriela has undertaken with her son and the families she has served helps her address different barriers within Arizona’s state systems. Her experience includes creating and collaborating with families in working in the public school system, managing prior HCBS companies and, now, owning and operating a company with her husband, Jose. The company Gabriela and Jose opened in 2014 is called Ideal Care LLC. It was founded with the mindset of providing appropriate and dynamic Home and Community-Based Services (HCBS), with an eye toward meeting the needs of families who often face unique challenges accessing the supports or services they or their children need.

Beyond operating Ideal Care, Gabby’s passions include helping and supporting Grupo de Apoyo para Ninos Especiales, also known as “GANE”. It is a support group for Spanish-speaking families with children and adults with all kinds of disabilities. Gabriela took over as president of the group in 2006. GANE meetings are held at Ideal Care’s offices and typically around 45 people show up each week to listen to a presenter from the community.

Gabriela joined the Council because she believes in the mission and what it stands for. She says, “I have seen firsthand how they (Council members) are passionate about the community they serve, and this aligns perfectly with my own core beliefs.” The former ADDPC director, Erica McFadden, came to a GANE meeting along with another staff member and met Gabriela and her family, and through some persistence finally got her to join the Council.

Spread the word. Keep your community covered. AHCCCS and KidsCare have returned to regular renewals.

Regular Medicaid Renewals began April 1, 2023, and the Arizona Health Care Cost Containment System (AHCCCS) is required to resume the regular renewal process and disenroll ineligible individuals from AHCCCS and KidsCare. Over the course of 12 months, AHCCCS will complete a full eligibility renewal for all 2.5 million enrolled members, following a careful plan designed to make sure that no eligible members are wrongly disenrolled, and that anyone who no longer qualifies for Medicaid is referred to other health care insurance options. The return to regular renewal processes will be the first time in three years that Medicaid and Arizona's Children's Health Insurance Program (CHIP) members who no longer qualify for Medicaid will be disenrolled. Members will be notified of their eligibility renewal prior to their month of renewal.

What AHCCCS Members Can Do To Prepare for Renewal:

- The most important thing AHCCCS members can do right now is **update their contact information in Health-e-Arizona Plus** (www.healthearizonaplus.gov). To update contact information, log in to www.healthearizonaplus.gov or call Health-e-Arizona Plus at 1-855-432-7587, Monday through Friday 7:00 AM - 6:00 PM.
- **Sign up for text/email notification alerts from AHCCCS and respond to all AHCCCS requests for information in a timely manner.** To sign up for text/email alerts of AHCCCS notifications, log in to www.healthearizonaplus.gov, go to "Message Center" on the toolbar, and click on "Manage My Alerts and Letters." Look for a letter from AHCCCS and respond if needed.

More than words: Taking Arizona's Employment First philosophy from theory to practice

This is an opinion column written by Danny Seiden, the President and CEO of the Arizona Chamber of Commerce & Industry.

State Sen. Steve Kaiser, R-Phoenix, recently presented a [resolution](#) to his Senate colleagues that might be one of the most important pieces of business the Legislature attends to this session. It didn't assert the need for a balanced

budget or a secure border or call for passage of a bill that would divide supporters and opponents along partisan lines. What it did was affirm that every person, regardless of ability, should have the right to pursue meaningful work that is essential so that individuals with disabilities in Arizona can thrive.

The first few lines of Sen. Kaiser's resolution articulate a goal that should be obvious to anyone and yet remains frustratingly elusive. "Every Arizonan should have the opportunity to participate in the workforce, including those who have disabilities."

The resolution amplifies the goals of an Executive Order signed in 2017 that designates Arizona as an "Employment First" state.

“
*What I Want
for My Life*”

WEBINAR SERIES

of Arizona's new ***"What I Want for My Life"*** webinar series. This program includes six different webinars! You will need to register for each separately.

The first webinar, moderated by self advocates, will provide participants with opportunities to hear from self advocates and supporters about the importance of having the early expectation of an integrated community employment goal. They will share what worked and didn't in staying true to that goal when barriers arose, advocacy strategies, such as peer or family supports or finding a mentor as powerful barrier busters. The panel will offer tips on what they wished others had shared when they first expressed their employment goals and considerations for participants in their own journey.
