Advanced Search
IPPS is piloting a new search engine as part of a broader initiative to improve the Oracle Procurement client experience. The next time you login to Oracle Procurement to shop for goods or services, click on Advanced Search in the Top Categories section of the homepage to test drive this new feature. The Advanced Search tool offers enhanced search functionality and provides more product details - including attributes, images, and certifications.

IPPS Office Hours Special Guest
During the week of October 24th, LabViva will be joining Procure to Pay and Travel & Expense Office Hours. They will be available to answer any questions related to the new Advanced Search tool, offering an alternative to the Oracle Procurement search bar. Please take the time to stop by and interface with that team!

View AP Invoice Billing Information
A new tab has been added to the Accounts Payable Invoices module in Oracle to show the POETAF and/or GL chart string information associated with an invoice. You can view this information in the Distribution of Charges tab after clicking on an invoice.
Financial Accounting Program: Upcoming Information Sessions
We invite you to hear more about the Financial Accounting Program by attending an upcoming Information Session for the following dates. Please register using links below:

- **Tuesday, October 25, 2022 @ 10:00am - 11:00am**
- **Thursday, October 27, 2022 @ 2:30pm - 3:30pm**

We encourage you to share this information with your teams, colleagues, and those who may be interested in participating in the Financial Accounting Program. We appreciate the partnership with UC San Diego Division of Extended Studies and the support from supervisors across campus.

Enhancement to Requisition Validation Process in OFC
Starting tomorrow, October 19, the current purchase requisition validation process that runs when the user submits the requisition in OFC will be enhanced. The validation will now include additional checks when the inventorial equipment expenditure type (163003) is used in the POETAF.

**Enhancement #1: Requisition Value and Expenditure Type Check**
If the user tries to submit a purchase requisition under $5,000 and uses the inventorial equipment expenditure type 163003, then a new message appears prompting the user to review guidance on purchasing inventorial equipment and confirm the requisition is for inventorial equipment.

The Approval Amount does not meet the $5,000 threshold for Inventorial Equipment Requisitions.

Inventorial Equipment, also known as capital equipment, assets, tangible personal property, etc., must have an acquisition value of $5,000 or more and is tracked by UCID in CAMS.

For guidance on purchasing inventorial equipment, use the knowledge base article (KBA):

[How to Purchase Inventorial Equipment in Oracle Procurement](#)

After reading the guidance above, is this requisition for inventorial equipment?

[Yes][No]

If the user clicks No, then a new message appears and it prompts the user to use another expenditure type.
If the user clicks **Yes**, then a new message appears and it restricts the user from continuing through the validation process, and the user is suggested to submit a ticket for support.
Enhancement #2: Inventorial Equipment Checkbox and Expenditure Type Check

If the user tries to submit a purchase requisition over $5,000, uses the inventorial equipment expenditure type 163003, and the Inventorial Equipment check box is not checked; then a new message appears prompting the user to check the box for Inventorial Equipment.

Please review the How to Purchase Inventorial Equipment in Oracle Procurement KBA for a review of this process, and feel free to submit a Services & Support ticket if you have questions.
