## University Mask Policy

Dear Members,

As new research develops about the novel virus COVID-19, the university has updated its mask policy. Our policy is consistent with guidance from the Centers for Disease Control regarding face masks. The only masks that will be allowed in our facilities are cloth masks and surgical mask. Masks with external filters are not permitted in our facilities.

These types of masks are designed to protect the wearer, and to make breathing easier for the individual, but do not reduce the spread of aerosols or airborne droplets as well as the standard cloth face coverings.

Below are examples of the masks that will no longer be allowed in our facilities. Failure to comply with requirements of this policy will result in denied entry to our facilities.

If you have any questions about the university mask policy, you can find it [here](#).

If you have any general questions, please contact [masonrec@gmu.edu](mailto:masonrec@gmu.edu).
