Future Potomac Science Center Pier Named in Honor of Dr. Don Kelso

The noted environmental researcher and adventurer also endowed a scholarship to

be named the Dr. Don Kelso Endowed Scholarship.

The scholarship will support current and future MASON environmental science

students with a financial need or with strong potential for continued success in

their studies.

The Mason Environmental Alumni Network is now active and open to any interested

learners. If you are interested in joining, please

fill out this information form

for more information.

A global ecologist and geographer with

more than 50 years of experience in national and international environmental affairs,

In an effort to continue to protect our community, Mason recently announced that we

require all Mason faculty, staff, and students

be vaccinated against COVID-19. This requirement includes students

returning to campus for the fall semester,

as well as students

who will be participating in Mason’s fall

intensive on-campus learning.

COVID-19 vaccinations are currently the best and most effective way to prevent

the spread of COVID-19, and this requirement

is necessary in order to protect our community and continue

the in-person learning and work environment.

Message from the Dean

Dear Mason Community,

As of June 1, 2021 the new Alumni Chapter Board has been elected. We are so

excited to introduce you to them here. If you have any questions for any members of

the Alumni Chapter Board or would like to join future meetings, please contact us at

College of Science Alumni Chapter Board Elected

Fernando

Sincerely,

George Mason University | College of Science | Exploratory Hall | 4400 University Drive, MS 5C3 |
