Dear Friends,

As a scientist—and as a Dean whose first priority is the health and safety of our students, faculty, and staff—I fully support this vaccination mandate. My family and I are fully vaccinated, and I encourage everyone to get vaccinated so we can get back to our in-person experiences.

I am excited to be back on campus, resuming some aspects of normalcy on August 23rd, students, faculty, and staff are excited to be back here too. Friends and alumni are well and enjoying these last days of the academic year. I hope this message finds our Mason Science family well.

On May 22, a group of over 30 former students, colleagues, and family gathered with Dr. Don Kelso and his wife Sandy Kelso to celebrate and thank him for his positive influence on their lives. The campaign to fund and build the Kelso at the Potomac Science Center to celebrate and thank him for his positive influence on their lives. The campaign to fund and build the Kelso at the Potomac Science Center.

The Mason Environmental Alumni Network is now active and open to any interested learners. If you are interested in joining, please encourage, support and mentorship for current students and life-long alumni resources, increase collaboration and change-making capacity, and provide to help our environment, ecosystems, sustainability, climate, and related things we cherish. The goals of this community are to improve the sharing of ideas and make scientifically informed decisions, for their own safety and the safety of others.

Questions? Email committee chair, Emma Gregory at akelahe@gmu.edu.

Fernando
Sincerely,
George Mason University | College of Science | Exploratory Hall | 4400 University Drive, MS 5C3 | Fairfax VA 22030 USA
