

We've Got Your Back!

Dear UP Pre-Health Students,

As Pre-Health Advisors, Becca and Kyle know that this is a stressful time for everyone, especially those of you trying to navigate professional health program applications, pre-reqs or clinical experiences. Please know that we are still available to advise you remotely if you need any help or guidance through this time. We are learning right along with you and are happy to assist in any way we can.

Please stay in touch, stay well, and let us know how we can help you! See below for just a few important updates.

Blessings,

Becca Henley and Kyle Flann

Pre-Health Advisors, UP

What's Going on with the MCAT?!

Please note that as of today all MCAT tests from March 27th - April 4th have been canceled globally. More cancelations may be coming in the future and you will get email communication directly from AAMC if this directly impacts you. [To stay up to date with the latest on the MCAT and COVID-19 please see the website the AAMC has put together.](#)

If you are registered for another type of entrance exam please make sure you are looking for direct communication from the testing company for further instructions during this time.

What About My Resume During This Pandemic!?

Please know that during this time the safety and health of all is the top priority - which means many opportunities you may be seeking in the health care field will be unavailable for an extended period of time (shadowing, volunteering in a hospital, etc).

BUT THERE ARE STILL THINGS YOU CAN AND SHOULD BE DOING TO BUILD YOUR RESUME DURING THIS TIME!

[See this awesome document that was created cooperatively by members of the National Association of Advisors for the Health Professions with many ideas of things you can be trying during this time.](#)
