think a hybrid format will be used in the future where participants can come to the office -in-person programming will back in place in 2021. However, for many programs, I opportunities for the people of Maricopa County and beyond. We are all hopeful that Our SNAP-Ed and EFNEP programs also worked to transition their program to an online courses, ensuring that the state's professional applicators were up-to-date in the latest streaming, allowing growers to visits agricultural fields virtually through the internet and learning. In our IPM/Field Crops program, our team became experts in live workshops, and virtual field days.

2020 will undoubtedly be remembered for many things. However, one bright spot for was also a loving son, brother, father, and grandfather. Our prayers and thoughts are with his We are saddened to announce the passing of Terry Mikel, retired Horticulture Agent at Maricopa County Master Gardener. This has facilitated a more personalized session of to the new format and to make gardening information more accessible of classes (17), the number of attendees more than doubled, from 648 in 2019 to 1570 held as in-person events and were constrained by the occupancy limits of the County Master Gardener Program, is a The Desert Institute of Gardening (DIG) managed by Master Gardeners. This has facilitated a more personalized session of space where the class was held. The Outreach education was all virtual and provided clientele opportunities to obtain other educational materials that could use less water with fewer maintenance inputs. Kurapia is a drought product origins (eg. vinegar, citric acid + clove oil, eugenol + molasses, d-limonene, new control strategies including evaluating herbicide options. previously identified as problems cropped up and prompted investigations to determine flourished and required By Kai Umeda
