- **Capability Statement**
  - July 21st 10:00 AM
- **Admin Services**
  - July 20th 11:00 AM
- **July 16th 9:00 AM**
- **ILC Virtual Lean Coffee**
  - We plan to do that in the coming months.
- **Buy American and Trade Agreements Act Compliance for Your ERP System**
  - The saying goes, "The only constant in life is change." If you have been working in the federal contract market during the past couple of years, then you know as well as we that the government’s rules are frequently changed. For the most part, the changes are for the better, with the goals of ensuring that the government is buying American and being good stewards of taxpayer funds.

### More changes coming to SAM.gov

The long-awaited, much-hyped "Unique Entity Identifier (UEI)" is finally happening. The SAM team has been working hard to get the changes to the federal government’s database of registered businesses and contractors. This eventually will take the place of your company DUNS number as a primary identifier of your firm. Your company’s DUNS number is an 9-digit number that is the "business name" for SAM.gov. The UEI will be a much more secure identifier, incorporating unique information about your company’s legal structure and location, your census data, and other unique characteristics of your business.

SAM.gov

- **Moved to beta.SAM.gov**
  - But the "beta" also went away, and it is now anticipated integration of SAM.gov and beta.SAM.gov occurred on May 24.

### New Technologies in the Digital Lab

The Iowa Lean Consortium’s Annual Conference will be coming to all corners of the state this fall, as CIRAS expands its efforts to make Lean management techniques more accessible in an Iowa facing severe concerns about workforce availability.

### Openings

- ** IL Director of Trade Promotion**
  - The open position serves to promote Iowa’s competitive advantage to the global marketplace, seeking to attract new businesses and build on existing trade relationships.
- **ILC Annual Conference**
  - The Annual Conference, traditionally the ILC’s largest and most extensive event, also will feature training, counseling sessions and projects.
