The Center for Industrial Research and Service (CIRAS) seeks to make Iowa better by educating its businesses about the latest research-proven methods and best practices of industry. Here are just a few of the ways we plan to do that in the current environment.

However, that doesn't mean we intend to stop educating Iowa businesses. CIRAS Will Stay with Online Events in 2020. 

Join one session or all three to learn more about your opportunities to engage with Iowa State University faculty and staff during the coming academic year.

Steve Mickelson, the Charles R. and Jane F. Olsen Professor in Industrial Technology, Ag Engineering and Ag Systems Technology, and chairman, will lead participants on tours of each section via Zoom. The tours will be followed by a 10-minute question-and-answer session.

Iowa State University's Department of Agricultural and Biosystems Engineering is hosting a virtual open house on Wednesday, August 5, so you can stop by and ask any questions you may have about the new building.
