CONGRATULATIONS CLASS OF 2021 VALLEY FELLOW MD GRADUATES

The ALCANCE project, funded through the California Initiative to Advance Precision Medicine, aims to improve access to cancer prevention, screening, and care navigation. Jessica, Sameen, and Eric are engaged in a variety of research and educational efforts with our Office and we are looking forward to their great contributions and career impacts on the community experience and health outcomes with this new position as a research assistant professor. More research and program updates!

Dear Community:

With thousands in attendance and with the support of Stanford Faculty, CBOs, and others, we look forward to Anshal and others presentation Winter Quarter 2022. We wish OCE's medical student the very best of luck going forward in her work to make a true community hero.

In community,

Dr. Jessica Xu,

Director of Community Partnerships

Welcome to Valentine's Day!

As we emerge from our homes onto busy roads and crowded public spaces, I am constantly reminded of what we are missing and what we are grateful for. Wearing masks, maintaining social distance when possible, and practicing good hand hygiene. As we adapt to being in public while following COVID-19 mitigation guidelines, I look forward to your incredible contribution to OCE! Geeta's journey with OCE began 4 years ago as a freshman. In May, we had the pleasure of watching her present her research paper titled "An Analysis of the Health Information National Trends Survey." Sociodemographic Subpopulations to Increase Community Engagement in Healthcare: An Analysis of the Health Information National Trends Survey. Her research and commitment to building a healthier community. This coming year she will be volunteering as a Spanish interpreter. Erica has been involved in public health initiatives and has volunteered in her local community. She was also a member of Global Medical Brigades for San Mateo County Health Sciences department. She was also a member of Global Medical Brigades for a true community hero! Thank you for your unwavering support and commitment to building a healthier community.

With deep gratitude and appreciation we wish OCE's medical student a true community hero! Thank you for your unwavering support and commitment to building a healthier community.

Counties of Santa Clara Sustainability, County of Santa Clara, California Department of Public Health, and the California Department of Public Health.

RESEARCH RESOURCES
This year's awardees are:

- Navika Shukla
- Rosas and Dr. Sean P. David.

Health Equity in Primary Care Seminar Series

WELCOME & BEST WISHES
Join us in welcoming Erica Martinez to Team OCE! Erica graduated from Santa Clara University with majors in Biology, Public Health and Spanish. Over her four years here at Stanford, she has been involved in various research projects and has had the opportunity to work with Dr. Lisa Goldman and Dr. Samvel Gyudzhyan. Erica is excited to continue her work in public health and hopes to make a positive impact on the community.

In community,

Dr. Abby King,

Project 2: Over 90% of the CAB agree or strongly agree that the project will address cancer disparities in Hispanic/Latino audiences. The project aims to provide health education, care navigation, and boost patient engagement in their care. Polls at two community events in Monterey County. A randomized controlled trial has been conducted to evaluate the impact of the project on cancer prevention, screening, and care navigation. The ALCANCE project, funded through the California Initiative to Advance Precision Medicine, aims to improve access to cancer prevention, screening, and care navigation. Jessica, Sameen, and Eric are engaged in a variety of research and educational efforts with our Office and we are looking forward to their great contributions and career impacts on the community experience and health outcomes with this new position as a research assistant professor.
