Tuesday's Celebration of Success

Wednesday, December 23, 2020 | 1:30 to 3 p.m.

Celebration of Success to Honor Outstanding Faculty and Staff

Each December, the college celebrates our recognition of outstanding faculty and staff.

I've significantly expanded the awards this year, not just because this was an unusual year, but also because I believe meaningful employee recognition is a cornerstone of a healthy, growing culture of positive recognition so critical to our organization during this time of tremendous and unprecedented change.

Despite the virtual nature of our workplace, thanks to the annual Dean's Awards to be shared at next year's Celebration of Success, and the upcoming celebration of the Mason's Science Community, I feel I've gotten to know a good bit more about the excellent work being done by many across the college.

It's been almost 6 months since I've joined Mason's College of Science and it seems crazy to me that I still may have only met some of you by Zoom or shared my thoughts with you about this organization through approximately June 1, 2021. More positions may become available based on the status of coronavirus and the need to respond.

Each Hiring Opportunity is posted at Mason's Career Site.

If you are interested in the position, please apply. Selected candidates will be contacted.

Additional information is available at Mason's Career Site.
