Less Particle, More Wave

From the lab to the legal world, Dr. Ron A. Dolin is a jack of all trades.

On the Rise

The campus notches more than two dozen graduate student winners of prestigious NSF graduate fellowships.

Graduate Alumni Giving Back

Our graduate students need your support now. Here are two ways you can help:

Share Internship and Employment Opportunities
Is your company hiring? During this challenging time, current and graduating UCSB grad students are eager for job and internship opportunities. If you have an employment or internship prospect, please email gsrc@ucsb.edu with a brief description of the role, required area expertise, desired degree stage(s) (PhD., M.A., etc.), if the role is open to all grad students or only specific graduate programs, and any other relevant information. We will then circulate the opportunity to current UCSB graduate students.

Event Highlights

Tips & Tricks for Online Interviewing: Use these strategies to take your online interviews to the next level. Monday, May 11, 2:00-3:00 p.m. PDT
