ORIEI will be holding an Informational Q&A on inclusive excellence. Projects may be either highly scholarly or highly practical/applicable.

scholarship and creative activities addressing the myriad issues on the theme of anti-racism and Research Working Group and funded by the ARIE Task Force. This funding will support research, announcement.

and wellness. Mason is one of 156 Campuses with the designation from Mason for creating a well-

universities and colleges around the world to students, faculty, and staff in education initiatives and make movement part of the daily campus culture.

and the Nobel Peace Prize with Vice President Al Gore.

and philanthropy climate research contributions. More than 90 guests gathered April 22 to celebrate and recognition of the achievements of College of Science researchers, the educators who nominate and nurture them, as well as the mentors who guide them.

Between now and the end of the semester, we have several opportunities to celebrate our student researcher to tackle some of the huge, bold problems currently facing STEM, society, and our global culture. Some may view a person who asks many questions as overly curious or perhaps even a troublemaker throughout all levels of learning. Mason Science mentors foster an audacious, questioning mindset.

#FacultyFriday features Anne Becker, master's student in life sciences, evolutionary biology, was selected for an honorable mention. 

#FacultyFriday highlights biology

The weekly #FacultyFriday series is a chance for Mason faculty to share personal stories of their work and the impact they are making on the Mason community.

This week's #FacultyFriday features

Yuntao Wu, Assistant Professor, Geography and Geoinformation Science
