Moving the Collection - Bay by Bay

The Peabody is currently in the pre-construction phase of a much-needed building update! This is Phase 1 of a two-phase project. One of our goals for Phase 1 of the building update is to replace the current basement shelving (wooden bays constructed in the early 1900s) with modern mobile shelving. Recently, the Peabody staff has moved much of the collection out of these wooden bays to a safe and temporary location. The Peabody staff have been working diligently to ensure the safety of all the collections during this work. For more building updates, check out our blog here!
