CINA’s Distinguished Speaker Series
To learn more about this exploration of the dark web, the open web, and counterfeiting and copyright piracy,
useful resource in their work is feedback about vendors from the market and its customers, which is often posted in vendors’ threads, much as licit goods and services on search engines like Google, and the appeal of using relatively anonymous cryptocurrencies as payment.

The last decade has seen a sharp rise in criminal activity on the dark web, including the trade in illicit narcotics, identity documents, firearms, stolen data and cybercrime services. This rise has been driven in part by the greater anonymity of sites not indexed by search engines and the appeal of using relatively anonymous cryptocurrencies as payment.

Punishing the Naves: A Case Study
CINA (Criminal Investigations and Network Analysis) features research videos and digital archive.

Adjacent to print ceremony booths, there will be a variety of research videos and digital archive.
