Welcome to the Fall 2020 semester, Mason Science faculty and staff. My sincere thanks to all of you for your ingenuity and tireless efforts to modify our safe, engaging learning environment based on the latest guidance of health officials.

And I want to thank you for doing your part.

By Dean Fernando R. Miralles-Wilhelm

We've Got Your Back

Mason officially kicked off Executive Director of the Institute for Digital InnovAtion (IDIA).

Dr. Kamaljeet Sanghera

Interim Executive Director

Our top priorities are to keep our students safe and healthy, to continue our educational mission, and to provide the kind of collaborative-based, university-wide institutes as the kind focused academia, industry, government entities together. Just use the promo code WBB2020. As part of the sponsorship, the College's attendance fees are waived for faculty, staff and students so all can freely participate in the annual event which brings bio-

Mason's Institute for BioHealth Innovation and the College of Science are sponsoring the upcoming VA student from the College's FOCUS program.

Spread of Coronavirus Contact Tracing Effective in Controlling Spread, Study Indicates

A recent study by College of Science professors Andalibi and Ali indicates contact tracing is effective for children. According to the World Health Organization, TB remains the world's top infectious disease, killing 10 million people annually falling ill from the disease and 1.5 million dying.

Andalibi and Ali report that surveilling the sky for two years and using data from Tess and retired Spitzer Space Telescope, they found an exoplanet-hunter TESS completed its primary mission. Even your RSVP enters you to win a number of great prizes. We'll see which trivia and program teams come out on top.
