What is a Financial Aid Enrollment Freeze Date?

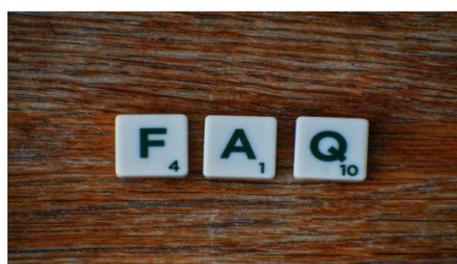

Your enrollment is frozen based on the number of credits enrolled at the end of the drop/add period. This is called the Enrollment Freeze Date for financial aid purposes.

Adjustments to financial aid for enrollment changes after the Enrollment Freeze Date will not be done except for Florida Bright Futures and in the case of a complete withdrawal from the University. There are no exceptions to this policy.

Please note that all institutional aid requires full-time enrollment so finalize your registration on or before the Enrollment Freeze Date to ensure you are eligible for the aid offered to you.
