Change in Timing of Allocation of Regents Gift Revenue

There will be a change in the frequency for some gift related entries.

- Currently, gifts made to the campus (Regents gifts) are recorded into the campus ledger weekly. Beginning with December gift receipts, the Regents gifts will be allocated to the fund on the 4th or 5th business day of the following month during month end close.
- While we understand this is a change from our current timing, you will continue to receive the Daily Gift Report detailing any gifts received to your fund during the month for use in planning expenditures. The revenue will be reflected in the same month in most cases (gifts requiring conflict of interest review may cross months). This will allow us to streamline our accounting processes and reconciliation, and reduce error correction.
- There will be no change to the processes or timing for gifts to the Foundation.

New Common Chart of Accounts Display Order in UCPath

UCPath is implementing a New Common Chart of Accounts (CCoA) Display Order. This project will update UCPath chartfield ordering adhering to the new UC systemwide standard, **beginning today, December 13, 2022.**

Who will be impacted?

- The new CCoA Display Order will only impact UCPath users.
- Oracle Financial Cloud (OFC) users will not be impacted. There will be no change to data entry in OFC.

New Enhancement Release: Contract Management Dashboard
Multiple enhancements have been released on the Contract Management Dashboard, including:

- **Award Contract and Project Summary**: This report now includes PI name, sponsor award number, sponsor name, and commitment amounts. You can also search the report by PI name.
- **General Contract and Project Summary**: Enhanced to enable search by project manager.
- **Receipt Details**: A new column has been added called *Accounted Net Amount*. This value shows the net amount that has been posted to the indicated chartstring in the general ledger. If amounts were entered and reversed on the indicated chartstring, the *Accounted Net Amount* will show as zero.

New Enhancement Release: Department Exceptions - Project Setup to GL Match Errors
The Project Setup to GL Match Errors Report now includes Fund mismatches, comparing how the project was set up in PPM and what funds are included in the COA for GL transactions. For example, the report would highlight the following error: a project is set up with only task 1 on fund 13991 in PPM, but a transaction posts on the GL with a gift fund.

Reporting Workshop: Dashboard of the Week Series
