This year's competition will be fully virtual and applications are due October 25th. Along the way are opportunities for networking, expert mentoring and more. Finalists will participate in the Global Workshop, bringing their ideas to life for a final pitch. Everyone is invited to brainstorm. We look forward to a productive year ahead. The pandemic has shifted the way we learn, but not our commitment to learning. It is a moment that challenges the status quo by coming up with ideas that can lead to a better tomorrow. You don't have to be an entrepreneur or an inventor to join – all you need is an idea that can change the world.

Red Bull gives wings to student innovators to drive positive change through its Red Bull Basement. What can you dream up that will change the world? To join, you can submit your idea through the online submission form. The deadline for submissions is October 25th. The competition is open to students from around the world, regardless of whether they are enrolled in a business or entrepreneurship program or not. The winners will receive prize money, mentorship opportunities, and a chance to pitch their ideas to a panel of judges.

October 25th is the last day to submit your idea. Don't miss your chance to participate in this exciting competition and make a difference in the world.

We hope you enjoy this month's newsletter, featuring a sneak peek of the new ENTP Society. As we all continue adjusting to a situation that we initially hoped would only last a few weeks in the beginning, I am an asynchronous student and have done a remarkable job keeping that special Forester spirit alive. While remote learning was not what anyone was expecting, it has become our temporary normal. At first, I was skeptical about receiving all of my instruction virtually; however, with time, I have come to appreciate it.

We know this is a different classroom experience. But we can use it as an opportunity to replicate in-person interactions and have done a remarkable job keeping that special Forester spirit alive. While remote learning was not what anyone was expecting, it has become our temporary normal. At first, I was skeptical about receiving all of my instruction virtually; however, with time, I have come to appreciate it.

We want to hear from you. What's keeping you motivated? What's keeping you together? What do you have for the remote learning experience? We hope you enjoyed this month's newsletter and are looking forward to hearing from you soon. Tell us what ENTP topics you'd like to read or learn more about.
