Announcements

Oracle Scheduled Maintenance

Oracle production environment will be down for maintenance from **7:00 PM Friday, 06/17/22** through **7:00 PM Sunday, 06/19/22**.

Deactivated Suppliers in Oracle

900 supplier sites were deactivated in Oracle as the emails to which POs were being sent were no longer valid. A full list of those who were deactivated has been [published for your reference](#). If you are attempting to order with a supplier who has recently been deactivated, please ask them to update their registration in Payment Compass. Specifically, they should edit their **Fulfillment Address** and ensure the email to which POs are sent is correct. Refer to our [Update a Supplier's Registration in Payment Compass KBA](#) for more instructions to provide your supplier on updating their information.

PADUA 2.0 is Live!

As of **June 1, 2022**, Project and Award Data Update Application (PADUA) 2.0 is live for campus users. Departments now have the ability to create their own General Projects with a single task and allow updates to Project elements such as Project Personnel, Name, Classification, and Reporting Category. Please use PADUA 2.0 to process these requests on individual projects.

Previously, users that are affiliates or have alias emails were encountering access issues – this has now been resolved. Review the [How to Use PADUA 2.0 KBA](#) for more information.

Access requests submitted through Services & Support will continue to be processed through **June 30, 2022**, but the turnaround time may be delayed. We thank you for your patience.
