Announcements

New Advanced Search Available in Oracle Procurement

Integrated Procure-to-Pay Solutions is piloting a new search engine as part of a broader initiative to improve the Oracle Procurement client experience. The new tool will enhance search functionality and give you a much better view of your products including attributes, images, and certifications.

What can I do to provide feedback?

We invite you to share your feedback as we improve the Advanced Search functionality. The new tool is designed to help the Budget & Finance community, including faculty or staff with financial responsibilities, identify their resources based on the following questions:

- Am I using the right search criteria?
- Do I see all of my contract, event, and invoice data?
- How can I better utilize my search results?
- How can we improve the Advanced Search experience?

Survey and feedback will be accepted until the next release of Oracle Advanced Search, expected in December 2022. To help us improve the new search tool, please take a moment to complete the survey and sign-up to join a group that will provide ongoing feedback to the team building Advanced Search; sign-up to join from the survey link. We appreciate your feedback as we develop the new tool to provide a better search experience.

Advanced Search homepage!

'The logo of a magnifying glass & laptop. Take a test drive and let us know what you think from the survey link found on the Advanced Search homepage! We are also looking for volunteers to join a group that will provide ongoing feedback to the team building Advanced Search; sign-up to join from the survey link. We appreciate your feedback as we develop the new tool to provide a better search experience.

Tips & Tracks

You want to ensure you get the most out of your experience in this blended course. Below are some tips and tricks:

- **Attend all sessions:** Each session builds on the previous one, so it's important to attend all sessions.
- **Take notes:** Be sure to take notes during the sessions to help you remember the key points.
- **Practice what you learn:** Use the concepts and tools you learn in the course to practice in your own work environment.
- **Engage with the instructor and other participants:** Ask questions, participate in discussions, and connect with other participants to enhance your learning experience.
- **Stay organized:** Keep track of your progress and stay organized so you can easily find the materials you need when you need them.

Remember, learning is an ongoing process, and the more you practice and apply what you learn, the more you will get out of this course.
