Enhanced Look and Feel of the Oracle Sign In

As of Monday, June 21, the theme of the Oracle Sign In page will have an enhanced look and feel! This new theme is part of a larger Oracle initiated transition to a new User Interface (UI) that will be released to campus in phases over the next several months. As updates are released, including enhanced user navigation, we will actively work to keep training materials, Blink guidance, and KBAs in sync with the releases.

Concur Travel & Expense

Procurement Card Expense Report Update
Concur Expense Type Comp Software Purch License Download is now available for selection when submitting a Procurement Card Expense Report in Concur.

New Account code 534002 on the General Ledger and new Expenditure Type 534002 - Comp Software Purch License Download in the Project Portfolio
Management (PPM) module have been created. The Account value is tax-exempt and tied to the Procurement Card Expense Type, *Comp Software Purch License Download*. Please select this non-taxable Expense Type when the purchase is for downloadable software. Review this [Blink page](#) for the full list of Procurement Card Expense Types.

*Click to view all known transitional issues impacting financial processes and reports. This list was curated specifically to support financial review and corrective actions by department fund managers.*

In Case You Missed It

**Hot Topics: Commitments** This is a great Hot Topics for those with projects that are closing. IPPS' latest session focused on Commitments as it relates to Oracle Procurement and Concur. Watch as our instructors review best practices in viewing and lifting commitments.

Information on Departmental Action and Cutoff dates for Fiscal Closing 2020-2021 is posted to Blink. Please note that this page is subject to change and updates as new information becomes available. Refer back to the Blink page at regular intervals.

**Tips & Tricks**

**Oracle Financials Cloud**

**Budget Dates in Oracle Procurement**
While checking out you may notice a 'Budget Date' field. Do not adjust the date to sometime in the future as this will impact the accounting of the PO and invoices.

**How to Split Fund a Purchase Order in Oracle Procurement**
During the checkout process, the individual submitting the requisition has the option to split their order amongst multiple chart strings or projects. Refer to our new KBA for instructions on how to do so.

**How to Differentiate Orders in Oracle Procurement**

By identifying key areas of the line items, you can determine whether a requisition consists of catalog, punchout, or request form items. You may also determine whether each line item is quantity-based or amount-based. Learn how by taking a look at our new KBA.

**How to Change the POETAF or Chart String on a PO Invoice**

If you receive a PO invoice to approve as a financial unit approver and realize the POETAF or chart string referenced is incorrect, the resolution will depend on a few variables. Reference our new KBA for guidance on this process.

**Concur Travel & Expense**

**Travel Allowance: Per Diem Meals and Lodging**

Automatically calculate per diem rates for both meals and lodging in Concur. Follow these instructions to learn how to add and manage Travel Allowance (Per Diem) in your Travel Expense Report.

**Who Can Access Concur?**

Current UC San Diego Employees (including Student Employees) and Sponsored Affiliates can log in and access Concur. They should utilize this guide to do so.

If you fall into one of the above categories and cannot access Concur, please submit a Services & Support ticket: About: *Access Requests to Financial Systems*, Related To: *Concur Travel and Expense*, More Specifically: *Concur (Access or Role Inquiries)*.

If the payee is not a current UCSD employee, then a faculty or staff member at UC San Diego needs to be the one to log in to Concur and process their reimbursement. Please refrain from directing non-employees and sponsored affiliates to process their own reimbursements via Concur. Doing so will cause delays in reimbursement.
