Oracle Reporting Technology Upgrade

This month, Oracle will be upgrading some of its reporting technology to improve performance. As a result, due to the upgrade, the performance of existing Oracle reports and release of new reports will be temporarily paused so the BI & Financial Reporting team can conduct thorough testing. This will not impact the launch of the Faculty & Researcher Dashboard, nor will it impact the accuracy of your current financial information coming soon including dedicated support options. See a demo of the report at this week's Office Hours.
