Oracle Fixed Assets Module Inquiry Access Granted

As we wrap up the conversion of existing active assets this week, all active Oracle users have been granted the UCSD FA Inquiry and Reporting JR role in Oracle production. This role will allow users to view financial and descriptive details associated with their assets in the new Fixed Assets (FA) module.

To help you get started, we invite you to watch a brief [three-minute video](#). This video will guide you through the navigation of the FA module and how to search for your assets!

To learn more about the Fixed Assets module and details about the implementation project, we encourage you to visit the following Blink Pages:

Reminder - Source Selection and Price Reasonableness Form

The Source Selection and Price Reasonableness (SSPR) form is required for purchases using federal funds that are equal to or greater than \$10,000 and/or purchases using non-federal funds that are equal to or greater than \$100,000. This form was designed and instituted by UCOP to help ensure that the university's purchases and supporting documentation are in compliance with all applicable federal, State and/or UC regulations, and that the University's purchases are appropriately documented for audit purposes, especially in regards to competition.

To aid in completing the [SSPR form](#) correctly, UCOP has also provided SSPR Form [Completion Instructions](#), which contains definitions, examples and resources. Links to both of these documents can be found within each of the various Oracle request forms.
