Oracle Fixed Assets Module is Coming in July!

Launching July 2023, the Oracle Fixed Assets (FA) module supports business processes surrounding the capitalization, depreciation, and financial reporting of fixed assets.

A fixed asset is a tangible piece of property or equipment with a minimum acquisition cost, has a useful life of more than one year, is recorded at the cost it was purchased at, and depreciated over the course of its useful life. Learn more about the upcoming Fixed Assets module and the types of assets it will support.

What you need to know:

- **The process of purchasing assets for your department will not change.** You will continue to purchase assets through the requisition process using an Asset Account/Expenditure Type.
- **CAMS isn’t going anywhere.** Once an equipment asset is created in the new FA module, it will be sent to CAMS where you will continue to manage and update asset data throughout the lifecycle of the asset. Any updates you make in CAMS will also be updated in the FA module.
- **Assets will be expensed at the Department Financial Unit/Fund level during the capitalization process in FA.**

Over the next several weeks we will send out additional information related to the FA project such as key dates related to conversion and upcoming office hours focused on key topics, including those above, where you can find out more. Check out the [Oracle Fixed Assets Implementation page](#) to learn more.

Financial Accounting Program: Upcoming Information Sessions
The UC San Diego Financial Accounting Program is a complementary professional development opportunity being offered to help you become more effective in your role. This program is currently offered at no cost to eligible career employees through the end of 2023 calendar year!

We invite you to hear more by attending an upcoming Information Session for the following dates. Please register using links below:

- Tuesday, May 9, 2023 @ 10:00am - 11:00am.
- Thursday, May 11, 2023 @ 1:00pm - 2:00pm.

You are encouraged to share this information with your teams, colleagues, and those who may be interested in participating in the full program or Financial Accounting for Non-Accountants (FAFNA) as a standalone course.

We appreciate the partnership with UC San Diego Division of Extended Studies and the support from supervisors across campus and health sciences.

Purchase Order Workflow
As of Sept 2022, there were changes made to the Purchase Order workflow, specifically to how the Strategic Procurement receives and processes orders that require their review and approval. As a part of this change, POs which have not been fully approved by a buyer have a status of Rejected. This status does not indicate that any action needs to be taken by you on the Purchase Order; it means the professional buyer has not yet reviewed your order. Please review our Buyer Workflow Enhancement Blink page for information on the changes and guidance on viewing the new status information.

Oracle Project Cost Adjustment Workflow Notification Updates Are Live
The Oracle Cost Adjustment Workflow Notifications updates are now live. The updates will provide more detailed information to facilitate approving pending transactions via email. The changes, including screenshots, are detailed on the Oracle Workflow Notification Updates Blink page under the “Project Cost Adjustment Notifications” tab.

Closing Soon! FY24 EPBCS Budget Process Survey

**Enhancement Releases:**

**Project Overview**
New columns have been added on the Project Overview report for the Fund and Function associated with the Task at project setup. The Project COA Lookup report continues to be the source of truth for correct and complete chartstrings, but inclusion of the Fund and Function on Project Overview provides you with an alternative way to quickly find this information in association with a plethora of other information about the project and task.
Project COA Lookup
A new filter for “Fund Starts With (First Character Only)” has been added to the Project COA Lookup report. Use this filter to search for all chartstrings for a particular category of gift funds.

Transaction Details
Project Department Reporting Category (Faculty Controlled vs Department Controlled) has been added as a multi-select prompt and as a field in the PPM Cost Transactions Full report and the GL Transactions report.

GL Project Balances
Project Classification has been added to the Summary tab to allow users to group and sort balances by project class category and class code.

Special thank you to the following individuals for submitting the requests that led to this week’s enhancements: Natalie Wolfe, Jason Yates, Eva Thiveos, and Carla Velasquez!
