Oracle Financials Cloud

How to View Available Form Field Options

When a specific field option is selected (e.g. Project number), the system will update the list of available options to choose from for any related form fields as shown above.

Concur Travel & Expense

Populating POETAF Information during Checkout in Oracle Procurement

When using a chart string (charge account) that is associated with a project, it is necessary to also populate the POET information in the Billing section. Refer to our Checkout Video Guide for instructions.

New CDC Travel Requirement during COVID-19

Funding Source: CDC order flying into the country to present a negative COVID-19 test result upon arrival.

Oracle & Concur

Register for the 2nd request results in an additional 6 month extension on the Oracle PPM Award Temporary Extension. Please submit an email to OPAFS review.

Oracle Financials Cloud

Cleanup of historical transactions affected by newly implemented CVRs will be a necessary step to ensure that all future transactions post to PPM accurately and to assist with the PPM to GL reconciliation.

Two new cross validation rules (CVRs) were implemented to ensure that all transactions post to PPM accurately and to assist with the PPM to GL reconciliation.

Preparing PPM Information during Budget Implementation

In order to avoid potential future errors, you need to provide accurate PPM information to the Billing section at the time of purchase in order to establish the correct chart string combination.
