Oracle Cloud Financials - New Chart String Validation Rule

Effective September 12, 2022, the following changes were made to the chart string validation rules for Financials Cloud:

<table>
<thead>
<tr>
<th>Field</th>
<th>Rule Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Project</td>
<td>Required on chartstring for SP (GL-114889660)</td>
</tr>
<tr>
<td>Funding</td>
<td>Required on chartstring for SP (GL-115222101)</td>
</tr>
<tr>
<td>CoA</td>
<td>Required on chartstring for SP (GL-120700500051)</td>
</tr>
</tbody>
</table>

The transactions that have been validated not to have the new rules enabled were not impacted by the changes.

To test Chart String Validation Rules:

1. Log in to Financials Cloud.
2. Navigate to the chartstring page.
3. Enter data that should fail validation based on the new rules.
4. Observe the validation errors.

Testing & Support

Concurrent support for Oracle Financials Cloud will no longer be supported; instead, the support team will address all issues and improvements through the regular releases. This change will allow for increased capabilities, and improved functionality to be delivered to you, our customers.

Concurrent support ended on September 12, 2022, and Financials Cloud will be on a monthly release cycle going forward.

New CDC Travel Requirement during COVID-19

As of January 26, 2022, the Centers for Disease Control and Prevention (CDC) implemented a new requirement for all international travelers to the United States. The requirement states that all travelers must present a negative COVID-19 test result upon arrival.

The test must be taken within 1 day of travel to the United States. Travelers must provide documentation of their test result at the airport, along with their vaccination status (if applicable).
