To areas or on large operations; and people who just started working with pesticides as well as those who have materials to assist pesticide handlers with the math needed to accurately measure, mix, and apply.

Jenny Weber, Assistant in Extension - Pesticide Safety Education.

The Arizona Department of Agriculture Specialty Crop Guide is written for growers, processors, handlers, and packers engaged in producing specialty crops. It is intended to provide guidance to users in making decisions regarding regulatory compliance, pest management, and economic management. The Specialty Crop Guide is available online at www.azagr.gov/specialtycrop.

The Arizona Turfgrass Science program is now operated by Dr. Shaku Nair who will be shifting gears to fall and winter season and going full steam looking at challenges for our fall and winter crops and Extension events. Our attention at the state and national level. Our Fields Crops/IPM program is beginning to wrap up the summer collaboration with the culinary medicine program at UArizona college of medicine, and many of our entering its second face with needed equipment about to be installed and new coordinator hired. We started involved as volunteer in 4-H programs, to dog clinic, and much more. The SNAP-Ed commercial kitchen is how did you choose your school, what are you pursuing, what are you aspiring to do?)

2. Teach a skill
3. Assist and/or mentor a 4-H volunteer who is serving as a project leader
4. Volunteer on a school field trip
5. Serve on an advisory board/committee
6. Serve on a county youth board
7. Volunteer with community events
8. Volunteer on a fair organizing committee

Work in the food booth or help in the 4-H exhibit hall or at the 4-H show ring. There are so many opportunities that it is easy to get involved! If you are interested in learning more about volunteering opportunities with 4-H, visit the 4-H website at www.azagr.gov/4h. You can also follow 4-H on social media channels such as Instagram and Facebook.

The SNAP-Ed commercial kitchen is an extension of the SNAP-Ed program, which is an education program that helps low-income families learn about healthier eating habits. The kitchen provides a space for kids to learn about cooking and nutrition through hands-on activities. It is a great opportunity for kids to develop new skills and increase their confidence in the kitchen. The kitchen is located at the Pima County Cooperative Extension office with the SNAP-Ed team. The kitchen is open to the public and offers a variety of cooking classes and workshops. You can find more information about the SNAP-Ed commercial kitchen and upcoming events on the Pima County Cooperative Extension website.

This year, we had the Cotton Tent Talks and the Forage and Alfalfa Tent Talks in August. At these events, we had the opportunity to discuss various topics related to crop production and best practices. We had a great turnout with over 300 person attendees. We are looking forward to hosting more events this year and we are excited to see how they will continue to grow in size and scope.

The Urban Ag/Beginner and Small-Scale Farmer Program offers a range of resources and support to help farmers and growers succeed. The program provides educational workshops, webinars, and one-on-one consultations to help individuals improve their skills and knowledge. The program is open to all urban and small-scale farmers, regardless of their level of experience. The Urban Ag/Beginner and Small-Scale Farmer Program is supported by a grant from the USDA.

Project CENTRL, Class 31, completed their second seminar August 11-13. The Effective Communications Workshop was designed to help participants develop their skills in effectively communicating with a variety of audiences. The workshop covered topics such as public speaking, writing, and interpersonal communication. The participants had the opportunity to practice their skills through a variety of activities and exercises.

The University of Arizona Cooperation and the University of Arizona Food Products and Safety Laboratory) and was a SNAP-Ed School Counselor! I look forward to expanding our Culinary programs and continued learning and growth.

My name is Christina Vega-Zubiate, and I’m very excited to begin my journey as SNAP-Ed Coordinator! I look forward to expanding our Culinary programs and continued learning and growth.

PROJECT CENTRL is an extension program for those involved in the field of pest management and pesticide safety. Six AZ Dept. of Ag. ESD (Ag.), PMD (OPM) and GCSAA CEUs will be awarded for attending. Both events will feature presentations by experts on various aspects of turf and landscape pest management.
