Churchwell Elementary School looks like an ordinary school. More than 320 eager students experience the ‘Living Museum’ at Robert Churchwell Elementary, located in the West End Neighborhood and will serve as home to several Student Organizations, Leadership and Service, an office of the Office of Student Activities, and the Office of Student Engagement and Service Space.

Free tickets will be provided to the first 50 people who sign up. Vanderbilt University faculty and staff are invited to join the Military and Veterans Employee Affinity Group and attend the Salute to Veterans event on November 17, 2022. The event will feature guest speaker, Dr. André L. Churchwell, vice chancellor for outreach, inclusion and diversity, chief diversity officer and racial equality champion at Vanderbilt University, who has a strong background in serving the military community.

During early voting for the 2022 midterm elections or on Election Day, employees may be absent from work for a reasonable paid period of time, not to exceed five (5) days, subject to the approval of the employee’s supervisor.

Initiative to boost diversity in STEM research. Antentor Hinton Jr., assistant professor of molecular physiology and biophysics in the School of Medicine Basic Sciences, has been awarded a $1.5 million, five-year grant from the Chan Zuckerberg Initiative to boost diversity in STEM research. The project is part of the Chan Zuckerberg Initiative’s $80 million commitment to support diversity in science research.

The fall 2022 Sesquicentennial grant cycle has funded 15 projects, including one that aims to enhance doctoral education and research experiences in the School of Medicine through the Development of Interdisciplinary Mentoring for Biomedical Researchers of Underrepresented Populations (DIME). The U.S. National Library of Medicine recently named the Vanderbilt University Medical Center as one of 10 national partners for the NLM Genomic Data Science Partnership to advance research on genomics.

In her new book spanning culture, law, science and theology, Dr. André L. Churchwell, vice chancellor for outreach, inclusion and diversity, chief diversity officer, hosted a panel of Vanderbilt faculty and staff, including Antentor Hinton Jr., assistant professor of molecular physiology and biophysics in the School of Medicine Basic Sciences, to discuss America’s struggle for racial equality.

Dr. André L. Churchwell, vice chancellor for outreach, inclusion and diversity, chief diversity officer, and racial equality champion at Vanderbilt University, has worked to overcome these challenges. He has brought about significant change in his alma mater and is proud to be an advocate for diversity.

Native American Heritage Month (NAHM) is celebrated annually from November 1 to November 30. NAHM is an opportunity to educate the unique, rich and diverse cultures, traditions and histories of Native American people. NAHM is also an opportune time to educate the unique, rich and diverse cultures, traditions and histories of Native American people.

Certain holidays happen in November. This month is rich in heritage, with many traditions that are held each year. The Center for First-Generation Student Success, FirstVU and Network First Gen, are inviting members of the Vanderbilt community to join us in celebrating FirstVU Week Nov. 3-11. The Center for First-Generation Student Success initiated the nationwide event to honor the resilience, motivation, and accomplishments of first-generation students and graduates at colleges and universities across the country. Five events, both virtual and in-person, will commemorate and celebrate our first-generation college student jumpers from the previous generation. Students who are the first in their family to attend college have unique challenges Native people have faced both historically and in the present day. These challenges have included boarding schools, adverse childhood experiences, poverty, federal policies, and discrimination. The Center for First-Generation Student Success seeks to celebrate these students and their achievements.

Dear Vanderbilt community, we are truly blessed because we see you, see ourselves and know that we must take the utmost care of one another.

Like eagle that Sunday morning
Over Salt River. Circled in blue sky
To sky, to earth, to sun, to moon
In wind, swept our hearts clean
In beauty.
