The Center for Industrial Research and Service (CIRAS) seeks to make Iowa better by educating its businesses about the latest research-proven methods and best practices of the industry. Here are just a few of the ways we plan to do so:

### Upcoming Conferences, Training, & Workshops

- **ILC Virtual Annual Conference**
  - The 2020 ILC Virtual Annual Conference is slated to include a fantastic keynote address from Col. Candice Frost, a Muscatine native and current director of foreign intelligence for the U.S. Army G-2 within Army headquarters.
  - The conference will be held over the course of three days and will be a virtual event. Registration is now open for this event.

- **Iowa Lean Consortium's Annual Virtual Conference**
  - Get ready to take advantage of another quality, daylong learning and networking opportunity, this time without leaving your desk.
  - The conference is open to everyone and will be held virtually.

- **COVID-19 Manufacturer Roundtable**
  - Recently, to help you better, we made some changes to how we'll handle webinars and roundtables moving forward. We've gone online. For more information, visit the Serves You Online page on our website.

- **COVID Update**
  - Like most responsible companies navigating a pandemic, Larson Electronics recently invested in additional sanitization equipment and procedures, and installed social distancing barriers. But was that doing enough?
  - Visit the CIRAS COVID-19 Doing Enough? page on our website to learn more!
