Introducing a New Professional Learning Series: Grand Morsels!

K-12 teachers, students, families, and the community are invited to participate in a new virtual learning series! We are introducing Grand Morsels, a monthly virtual series communicating science concepts. The name Grand Morsels

was chosen to reflect our intent to break down (digest) large or difficult scientific topics into interesting and understandable bite-size morsels.

Plan to Attend the Sixth Annual Roger That! Symposium

Grand Valley State University and Grand Rapids Public Museum are proud to present the sixth annual Roger That! public symposium on space exploration on the weekend of February 18-19, 2022. The Roger That! symposium is named in honor of Roger Chaffee, a native Grand Rapidian who lost his life in the Apollo 1 fire. A wide variety of activities are included in this two-day event – there's enough space for everyone! The 2022 event has a theme of "Women and Space" and will be presented in a hybrid format, beginning with virtual speakers Friday morning and transitioning to in-person events around 4pm Friday afternoon, with the remainder of the symposium in person.
