

10 YEARS

OF BUILDING MORE THAN BOATS

It's Bigger Than the Boat

July 1, 2021

Summer Camp returns!

Last summer laid the ground work for this summer's collaboration with our community partners and the Oregon Youth Sailing Foundation and Willamette Sailing Club to bring ten weeks of camp in 2021. Building in the mornings and sailing in the afternoons, campers from **Alliance at Meek, ELSO Inc., Rosemary Anderson HS, and iUrban Teen** will join us for full days exploring new found skills, knowledge, and friendships.

Summer school is summer camp for two cohorts of Alliance at Meek High School students.

Working together with Wind & Oar staff, high school teachers link math, science, and and exploration of natural resources with the process and skills of building a wooden boat. Afternoons, Willamette Sailing School instructors introduce sailing, kayaking, water safety along with related STEAM enrichment.

CELEBRATING 10 YEARS OF WIND & OAR

After 10 years, we've done more than build boats, we've built thinkers, innovators, and dreamers.

Our work is powered by the belief that all children are capable of learning and thriving. Experiential, hands-on, project-based education is essential for engaging and inspiring students.
