CAMPUS PLANNING & FACILITIES MANAGEMENT | 3/1/2022

Welcome Spring

Sarah Stoeckl is getting ready to watch students present on ethics and finding summer outdoors jobs.

Environmental Leaders Summit

The goal of Redefining Outdoorsy is to challenge the existing structures of the outdoor industry by empowering and amplifying often underrepresented communities to create a more equitable and accessible outdoors.

Throughout the year, a variety of affinity trips are offered to create safe spaces for students to learn and experience the outdoors. The program culminates with this winter term summit, where participants can come together to hear from keynote speakers, students, and facilitators on a variety of topics surrounding diversity, equity, and inclusion in the outdoors. Below Environmental Leaders ARC students (led by Sustainability office) with Pattie Gonia, speaker, activist, drag queen, and keynoter at last weekend's Redefining Outdoorsy Summit.

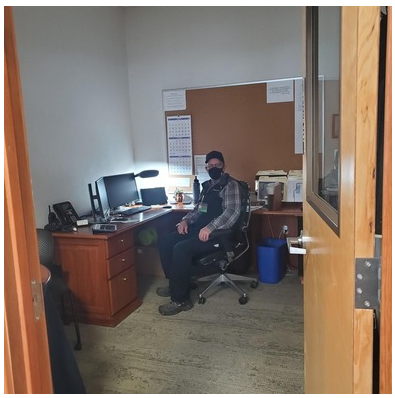

Facilities Leadership Relocated to Building 130

Jeff, Debbi, Jim, Kevin, and LeAnna have relocated to Building 130. Stop by and say hi. This project was initiated in 2020 and involved HVAC upgrades, multi-trade work, including; pest remediation, ceiling tile work, electrical, carpet, paint, and custodial. Thank you to Maintenance Support Kyle, Pete and Quinton for all their hard work on moving day!

Food Drive

The Student Food Pantry food drive was an excellent way for CPFM to partner with other campus groups.

They collected just shy of 400 lbs of food.... 399! That's the equivalent of 300 meals for students in need of food support.

We saw donors from the Accessible Education Center, Admissions, Advancement, CAS Dean's Office, Campus Planning and Facilities Management, the Division of Equity and Inclusion, Human Resources, Libraries, Lundquist College of Business, and University Health Services!

Construction Services project in LISB

Before, during, and after of a workstation pony wall demo and patch-back in LISB. The space is assigned to Psychology as a Grad Employee office. The project involved Maintenance Support, Electrical, Carpentry, Paint, Lock & Key, and Custodial.

Kudos Korner

I wanted to take a moment to recognize the amazing efforts of Judy Haines. Judy is such a dedicated employee at the UO, I am constantly impressed with her attention to detail and her hard work ethic. She is always proactive in finding things that need to be attended to before they become an issue, and as a Building Manager I am so appreciative of that.

The thing that strikes me the most about Judy is how much she cares for people. She makes the effort everyday to get to know the students and staff who work in the Ford Alumni Center, and is on a first name basis with almost everyone. Judy always goes the extra mile for people and it shows. We are incredibly grateful to have her as a part of our team.

Thank you,
Shawn Kahl Director - Facilities Operations, University Advancement

I am writing to let you now that Dave Kennedy and his team installed some white boards for us here in Johnson Hall this morning and they did a stellar job!

They came and scoped the job yesterday morning and made sure they had all the information they needed by yesterday afternoon. They came back first thing today and had both boards installed perfectly by 9am, which was when a really important meeting was starting in the office next door. They were communicative, considerate, and when they were done THEY VACUUMED! Both offices are cleaner now than when they put the white boards up! They unpacked the boards and tidied up so perfectly, you wouldn't know they'd been here—except for the perfectly level boards and immaculate offices, of course.

Please commend Dave Kennedy, Quinton Cole, Mike McCoy and Pete Enfield on a job well done; they clearly work very well together and it was a pleasure to have them here.

Our thanks to the Trades Maintenance crew and CPFM Facilities for a really positive and professional experience.

CPFM's team is awesome, too, btw. The last few years, through COVID, zero issues. Place is cleaned, door knobs sanitized just in case, bathrooms spic and span, all the stuff that you don't notice until it's not being done, you know?

Or Kenny! He took a picture of a camera that went down in Romania twice, showed me where a cable was getting stressed and broken due to it being bent in a bad way. He re-drilled a better hole for it so it wouldn't break then put in a new ethernet cable for it

Piper Fahrney & Ashley Mayfield using the vac truck to do some excavating to stop a foundation leak with some Bentonite. Bentonite is an absorbent swelling clay. A messy job, but they seem happy to be doing it! Great teamwork! #HowDucksWork #UOCPFM #UniversityofOregon #UO
