Deadline for Proposals | Wednesday, April 7, 2021 by 5PM PST

The recent racially-motivated shootings of Asian women in Atlanta and the vaccine inequities remind us that the work continues. As our hope grows, I would like to take a moment to acknowledge the loss, injustice, and sacrifice that many have experienced so acutely over the last year. Together, alongside their RMHC mentors, Nicole Williams, Bri Seoane, and Juan Hernandez and their community partner Venetia Medical Group, have continued to provide support with dissemination efforts.

Faculty mentors Dr. Susan Hintz and Dr. Lisa Goldman Rosas, they provided the house with valuable information to improve the health and well being of the patients they serve. We applaud your efforts. Finally, I would like to thank the hardworking OCE team. Our community and research partners deserve the best and you deliver every day. Thank you for all that you do!

Lisa Goldman Rosas, PhD, MPH

Engaging Communities in Health Equity Research

Dr. Lisa Goldman Rosas, will focus on the California Initiative to Advance Precision Medicine in Monterey County.

Welcome

CMN STANFORD TOWN HALL | FEB 2021

I.  Food insecurity in Latinx Immigrant Populations

Please consider donating to RMHC and interrupt the organization’s traditional fundraising events, but families still need housing, food, and medical care more than ever. Direct donations make an immediate impact, allowing staff to purchase and deliver much-needed supplies to families staying at the house.
