Safe Return to Campus Update #2

Safe Return to Campus Update #2

Friday, August 14

The George Mason University community are all working towards a safe return to campus this fall. It is important that all students, faculty, staff, and guests take the following steps:

1. Complete the COVID-19 form, which will be sent to all students and employees.
2. Wear a mask in public places.
3. Practice social distancing.
4. Wash your hands frequently.
5. Stay home if you are feeling ill.

We are doing our part to limit the spread of COVID-19. On Monday, Aug. 10, it began with student athletes.
