In this issue

FOREFRONT OF CHANGE

In the Mason community, we are committed to transparency, with opportunities to engage at all levels of our university. Our college leaders have been working hard to bring us together. While the pandemic has brought us all together in a unique way, we are excited to continue to foster a culture of open communication and collaboration.

MESSAGE FROM THE DEAN

The second half of the academic year is upon us, and Mason is on track to achieve our goals. In my final campus-wide message of the semester, I want to provide you with a candid, honest assessment of our progress this year. I will share my thoughts on our successes, challenges, and future plans.

WEBINAR SERIES

“In this issue, we are looking forward to hosting a series of webinars that cover a range of topics, from research and discovery to Mason Science. These webinars will feature discussions on diverse subjects, from climate change to space exploration. Additionally, Mason faculty and students will be sharing their research findings and insights, offering a glimpse into the exciting work being done at Mason.

IN THE NEWS

Join the College of Science team for a behind-the-scenes look at the Potomac Science Center. The College of Science, led by Assistant Professor Bok Haeng Baek, will provide an inside look at the facility and discuss its role in advancing scientific research and education.

EVENTS

In the Mason community, we are always looking for ways to connect and engage with our students, faculty, and staff. This semester, we have a variety of events planned, from field trips to lectures and workshops. Whether you're interested in science, art, or music, there's something for everyone. Check out the full calendar on our website for more information.
