There is no substitute for a college education, but in this new era of the 21st century, higher education and graduate education will be more important than ever. The knowledge and skills gained from a college degree will be the key to success in the workforce. In addition, college provides an opportunity to gain new experiences, meet new people, and explore different cultures. The benefits of a college education are far-reaching and long-lasting.

What behavior are we looking to remove from our culture? Here is an example of a microaggression:

They “are defined as verbal, behavioral and environmental indignities that communicate hostile, offensive, or unprofessional sentiments toward any group of individuals and whose harms cannot be fully remedied by the process of handing out participants.”

To be able to grow, we need to better understand the challenges and define the culture we seek, using the tools at our disposal.
