Call for Proposals: The Role of Cybersecurity in the Spread of Disinformation and Misinformation

Join us for the next Galileo Science Cafe presented by affiliate faculty member, Rainald Löhner, School of Systems Biology Professor.

The Role of Physics in Medicine and Medical Education

Wednesday, March 10, 2021

Mason Science Community

FERNANDO J. RINCON-VELASQUI

There is a dire need and a call to a movement in the area of cybersecurity. The government is the first to see its importance and has been very active. The military has also shown interest in this issue. However, the universities are yet to show interest in this area.

Virginia’s Commonwealth Cyber Initiative (CCI) is offering seed funding for multi-disciplinary teams to address cybersecurity challenges.

Join the Institute for a Sustainable Earth for a roundtable discussion on a broad range of topics concerned with the energy policy.

March 15, 2021 | 12:30 to 2 p.m.
Roundtable Dialogue: Energy policy and decarbonization

What does it mean to be anti-racist. And how can I learn more?

This behavior is unacceptable. I was outraged to hear of this activity and commit to creating a culture where it is not tolerated here at Mason. Not just because Navarro is from my native Venezuela, but rather because it is the right thing to do.

The cover of a recent edition of the Chronicle of Higher Education article "microaggressions are incidents in which someone accidentally (or purposely) makes an offensive statement or asks an insensitive question."

According to a recent article in the Chronicle of Higher Education article, "microaggressions are incidents in which someone accidentally (or purposely) makes an offensive statement or asks an insensitive question." The article highlights use of smoke test to protect court goers from COVID-19.

What behavior are we looking to remove from our culture? Here is an example of a microaggression:

(2) Providing forensic science and legal training to district attorneys, judges, and law enforcement; (3) $2,000,000 from the U.S. Department of Justice for a project aimed at: (1) Providing medico-legal learning opportunities to medical examiners; (2) Providing legal and forensic training to judges; (3) Providing legal and forensic training to law enforcement.

Practitioners in the field.

Groups and working with real organizations who provide real data provides students with a true opportunity to find solutions to a real-world challenge.

By Laura Powers

Maria Emelianenko

Meet #MasonScience Mathematical Sciences Professor of Maria Emelianenko #FacultyFriday highlights the work of Mason faculty and students.

Mason faculty and students rank its severity with more accuracy.

What does it mean to be anti-racist. And how can I learn more? According to a recent article in the Chronicle of Higher Education article, "microaggressions are incidents in which someone accidentally (or purposely) makes an offensive statement or asks an insensitive question." The article highlights use of smoke test to protect court goers from COVID-19.

To be able to grow, we need to better understand the challenges and define the culture we seek, using examples along the way to build awareness.
