**Trinity Washington researchers make debut as guest curator from PLTC**

Did you miss the last Distinguished Speaker Series? Watch speaker [Session Recap: “Finding Trafficking Networks”](https://www.cina.gmu.edu/events/2020-10-14-snes-a-4946/). Social networks are the strongest predictors of gang violence. Gang boundaries are messy but best measured via networks; 2) Gang scholars and networks, formulated as testable empirical statements: 1)
